

Local "Grandma" Unicycles for WomenCARE

Cancer is one of the leading causes of death for women in this country. Without proper resources quality of life for those with cancer is greatly reduced.

In an all out effort to raise money for **WomenCARE** David Wells ("Grandma Dave"), a local nutrition coach (www.nutracoach.com), will be riding his unicycle throughout the county and beyond. **WomenCARE** is a local non-profit providing free practical and emotional support services to any woman with cancer in Santa Cruz County and to her family and friends. Riding to inspire others, Wells says, "I'm hoping Santa Cruzans will see how critical an organization like **WomenCARE** is to our community, and that people will donate whatever they can afford."

Grandma Dave Needs Your Help!

"When my mom was diagnosed with late stage ovarian cancer in 1994 we had a difficult time finding resources and a support group, but when we did her attitude and outlook improved immediately. I feel this is the primary reason she is still alive."

David will also donate a percentage of profit from his **Grandma Dave's Organic Granola**, available at New Leaf Community Markets, Staff of Life, Deluxe Foods of Aptos, and Whole Foods Markets.
